ECS PI SE 1-023 requires that the VDB be updated with test case definitions and associated criteria mappings.

23. Problem: (use additional Sheets if necessary)
Test case 6A10090 was added as a late addition to 6A test cases. Therefore, its criteria was not submitted along with the other test cases for the VDB during the original update.

24. Proposed Solution: (use additional sheets if necessary)
- Add the test case 6A10090 as specified in the attached "Test Case Mapping (Release 6A) to the VDB.
- Include the mapping specified in the attached " Criteria to Test Case Mapping (Release 6A) table in the VDB.

25. Alternate Solution: (use additional sheets if necessary)
N/A

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
- This test case will not be included in the VDB.
- VDB will indicate an orphan for this criterion (i.e .. criterion without a test case mapping)
- Failure to make this change will result in a totally inaccurate portrayal of Release 6A Criteria Status.
